Issued May 2019 Service Sheet HJBS-280m

Pour démonter la carrosserie:

1. Retirez les rambardes de la cabine.
2. Retirez les vis de fixation de chacun des capots. Chaque capot est maintenu par 3 vis.
3. Lors du démontage des capots, soyez attentifs car la cabine n'est maintenue en place que par ceux-ci.
4. Vous pouvez enfin retirer la cabine.

To open body:

1. Please remove the cabin handrails.
2. Remove the screws of both hoods on the underside of the locomotive. The hoods are held by 3 screws each.
3. When removing the hoods please take care because the cabin is only held in place by the hoods.
4. Now the cabin can be removed, too.
